SOUTHAMPTON SHOW 1973

THE MASKERS OPEN AIR THEATRE

Welcome, once again, to THE MASKERS OPEN AIR THEATRE: we sincerely hope that you will find our programme of four items of interest and, what is perhaps more important on these two days of Southampton Show-time, of amusement!!

This show marks the end of another hectic season in which, apart from numerous minor events, the Society has added another four major productions to its list of successes.

THE MASKERS always look forward to their annual pilgrimage to the Southampton Common and to letting their theatrical hair down in a light-hearted programme for a light-hearted occasion. You are invited to Hiss the Villain (at the proper time) and Cheer the Hero (at any time), let the younger visitors enjoy the puppets and the participation or just sit and rest your feet and eat your sandwichesif there's an audience you can be sure that THE MASKERS will be only too willing to perform!!!
