'Ayckbourn has never written more skilfully or to better effect': so said The London Evening Standard when awarding this blistering black comedy the "Best Play" Award in 1987. Today, in post-Thatcher Britain, many of the plays darker themes are even more relevant. An explosively funny first scene with the laughter continuing to build up well into the second half: but, by the end of this richly plotted evening, (when the words "family" and "business" have begun to acquire sinister mafia overtones) our theatre's master craftsman of comedy has delivered a disturbing morality play.
